Integrated Pool Products

Manufacturers of a wide range of high quality,
precision engineered pool products.

Upholding the IPP standards of excellence in
design, ease of assembly and use. Friendly and
efficient service.

Products

- Automatic Pool Cleaners

Poolmaid & Voyager Cleaners

The Poolmaid and Voyager automatic pool cleaners are robust and hard-working models featuring proven “flapper”, or “hammer”, technology and exceptional design for use in a variety of pool sizes and shapes. Spares are freely available and inexpensive to ensure that you get the most from your pool cleaner.

Poolmaid Cleaner

- Features float and adjustable weight which can be adjusted to your pool's specific needs
- One moving part
- Advanced swivel technology results in good random movement and pool coverage for a cleaner pool
- Works with minimal suction
- Ideal for wide variety of pool shapes, surfaces and water depths
- UV stabilized, high quality, long life material suitable for most pools
- 3-year warranty
- New high tech hammer design for quieter operation and better debris cleaning capability
- Easy to remove debris from drive mechanism
- Patented flushing ports to reduce jamming of the hammer.
- Internationally Patented

Voyager Cleaner

- No frills simplified design
- One moving part
- Advanced swivel technology results in good random movement and pool coverage for a cleaner pool
- Works with minimal suction
- UV stabilized, high quality, long life material suitable for most pools
- 3-year warranty
- Integrated floatation system and adjustable weight
- New high tech hammer design for quieter operation and better debris cleaning capability
- Easy to remove debris from drive mechanism

Products

- Automatic Pool Cleaners

Xplorer Turbine Cleaner

The Xplorer automatic pool cleaner is a silent, turbine driven unit incorporating patented technology engineered for high efficiency and low operating costs. Four wheel drive motion allows for enhanced wall climbing ability with small radius. The Xplorer is programmed for optimum random movement to ensure thorough cleaning regardless of the pool shape. Its one directional gear design reduces wearing of the gears and replaceable hose sections ensure a cost saving, longer component life span and easy maintenance.

- Super silent turbine drive
- Programmed for most pool shapes and sizes
- 4-wheel motion ensures enhanced small radius wall climbing
- Reverses out of obstacles
- Precision engineered, one directional gear design
- Easy to maintain with replaceable hose
- Obstacles are easy to remove from the turbine housing
- Works with existing pool filtration (min 0.75kW) no booster pump required.

Products

- Salt Chlorinator

Poolmaid Salt Chlorinator

The Poolmaid Salt Chlorinator automatically turns coarse salt into chlorine, reducing the hassle of pool care and saving you money on chemicals. Poolmaid Chlorinators have been designed with a plug in mechanism, so it is easy to install and suitable for DIY installations. Simply install the Poolmaid Salt Chlorinator unit, add the correct amount of salt and you can enjoy your pool more, all year around.

The Poolmaid Salt Chlorinator makes it easier and more economical to own a swimming pool by automatically dosing and regulating the chlorine level. In fact, under normal conditions, you will only need to add salt once a year and ordinary pool acid when required, depending on how often the pool is backwashed.

Available in manual and self-cleaning models, the Poolmaid Salt Chlorinator is the answer to hassle-free pool care. As an optional extra Poolmaid Salt Chlorinators can be fitted with a temperature sensor. This sensor automatically regulates the chlorine output in relation to the water temperature. i.e. the warmer the water the more chlorine is automatically produced the colder the water the less chlorine is produced.

- Compact design for easy installation in new or existing pump housings
- Makes pool water gentler on eyes and skin
- High efficiency and low running costs
- Low voltage operation
- Supreme self cleaning models eliminate need to clean electrodes*
- Manual models require electrode cleaning only once a month depending on the calcium content of the water
- Can be used in electric & solar heated pools
- Kit includes chlorinator unit, power supply, electrical connections, plumbing elbows and mounting screws
- Safety tested, UL, CE and South African Bureau of Standards (SABS) approved
- 1-year warranty on electronics & 2-year pro rata warranty on electrodes
- Electrodes and spares reasonable priced
- Water Temperature indicator optional
- Cold water cut off which protects and extends life of the electrodes (optional)
- Easy to service
- Deluxe models have a low salt cut off which protects and extends the life of the electrodes (optional)
- Poolmaid uses the latest printed circuit board technology

** Self cleaning units need to be cleaned if the pool water has excessive calcium above 400ppm*

Products

- Pool Lights

Single- & Multi-Coloured LED Pool Lights

Poolmaid Single- & Multi-Coloured LED Pool Lights bring a touch of ambience to your poolside lifestyle. Ideal for domestic applications as well as hotel and public pools, the units feature rugged construction and safe, low-power operation, a fraction (25 Watt) of the consumption of conventional pool lights. LED lights last many times longer than conventional pool lights.

Super Deluxe Multi-Coloured LED Pool Light

- Continuous scrolling through 7 colours: Red, Red Green, Green, Green Blue, Blue, Magenta, Blue, Green and Red
- Programmable operation pauses light on any colour
- Long-lasting LED illumination
- 252 LEDs per unit provide 4000 candella light intensity
- Safe Low power 12 Volt operation
- Easy installation (can be retrofitted to standard South African Pool Light fixtures with 170mm inside diameter)
- Multiple colour lights can be synchronized via a single transformer

Deluxe Multi-Coloured LED Pool Light

- Continuous scrolling through 7 colours: Red, Red Green, Green, Green Blue, Blue, Magenta, Blue, Green and Red
- Long-lasting LED illumination
- 252 LEDs per unit provide 4000 candella light intensity
- Safe Low power 12 Volt operation
- Easy installation (can be retrofitted to standard South African Pool Light fixtures with 170mm inside diameter)

Single-Colour LED Pool Light

- Blue
- Long-lasting LED illumination
- 50 LEDs per unit
- Safe Low power 12 Volt operation
- Easy installation (can be retrofitted to standard South African pool light fixture)

Products

- Filter Systems

Poolmaid Integrated Filter System

The Poolmaid Integrated Filter system is an all-in-one filtration solution ideal for both new and existing pools. It eliminates the plumbing requirements of traditional filtration systems making it easy to install and ideal for use in problematic areas where one would have to uplift the pool surround, such as coral or wooden decking. It features high – efficiency, easy to clean filter bags and reduces chemical requirements so you can have a sparkling pool all year round.

Poolmaid Integrated Filter System:

- Complete all-in-one filtration solution
- 10 micron filtration efficiency is 5x better than conventional sand filtration systems
- Easy-to-clean industrial filter cloth bags
- Pre-wired to accommodate Poolmaid Salt Chlorinator
- 12 000 litre/hour circulation
- Built-in weir turbo skimmer ensures surface cleaning
- Operates pool cleaner and surface skimmer simultaneously
- Blue LED light standard, Colour LED light can be fitted as an optional extra
- Leaf catcher can handle 3x more debris than conventional systems
- Easy-to-install with no plumbing required
- CE & South African Bureau of Standards (SABS) approved
- No backwashing required which results in a substantial water and chemical saving
- No chemical backwashing in the garden or on plants
- Compact design
- Uses less electricity than ordinary pool systems
- Convenient control panel houses automatic timer, earth leakage, 12V transformer and light switch.

Poolmaid Pool Hoses

Poolmaid sectioned pool hoses have been designed for performance, durability and long service life. Ideal for use with most suction-type pool cleaners, the hoses are the best choice for low-cost pool maintenance.

- Sectional design means easy, low-cost replacement
- Single-piece, blow-moulded polyethylene (no glue or welds)
- Integral cuffs
- UV resistant
- Available in different colours
- Adaptable to other hose makes
- Good random movement
- Long life durable hose due to more material used per hose section

Product Codes

Chlorinator Models

Product Code	Description	Voltage	CL/H	Capacity
M5C	non self cleaning	230V	5gr	0-35000 Liters
M10/18VTX	non self cleaning	230/18V	11gr	35000 -80000 Liters
M15/18VTX	non self cleaning	230/18V	16gr	80000 - 100000 Liters
M10/120/18VTX	non self cleaning	120/18V	11gr	9200 -21000 US Gallons
M15/120/18VTX	non self cleaning	120/18V	16gr	21000 - 26 000 US Gallons
S5C	self cleaning	230V	5gr	0-35000 Liters
S11/18VTX	self cleaning	230/18V	11gr	35000 -80000 Liters
S14/18VTX	self cleaning	230/18V	15gr	80000 - 100000 Liters
S18/18VTX	self cleaning	230/18V	18gr	100000 - 120000 Liters
S11/120/18VTX	self cleaning	120/18V	11gr	9200 -21000 US Gallons
S14/120/18VTX	self cleaning	120/18V	15gr	21000 - 26 000 US Gallons
S18/120/18VTX	self cleaning	120/18V	18gr	21000 - 32 000 US Gallons

Note: Capacities are based on a normal bathing load (3 - 4 people), a maximum water temperature of 24° C and a pool that is well stabilised (80 - 90 ppm). Poolmaid Salt Chlorinators are suitable for domestic pools only.

Pool Cleaners

Product Code	Description
POOLMAIDHEAD	Hammer (flapper) Type Pool Cleaner only
POOLMAIDCOMBI	Hammer (flapper) Type Pool Cleaner complete with 10 x 1 Meter (3 Foot) hose
VACUMACHEAD	Hammer (flapper) Type Pool Cleaner only
VACUMACCOMBI	Hammer (flapper) Type Pool Cleaner complete with 10 x 1 Meter (3 Foot) hose

Led Lights

Product Code	Description	Voltage
LEDLIGHTBLUE	50 Blue Led's	12V
LEDLIGHTCOLOUR	250 RGB Led's With Colour Pause	12V
LEDLIGHTCOLOURSCRO	250 RGB Led's With Constant Scrolling	12V

Filters

Product Code	Description	Voltage	Capacity
MINIFILTER	Filter only	230/12V	60 000 LITERS
MAXIFILTER	Filter only	230/12V	120 000 LITERS
MINIFILTER/CONTI	Filter c/w self cleaning chlorinator	230/12V/18V	60 000 LITERS
MAXIFILTER/CONTI	Filter c/w self cleaning chlorinator	230/12V/18V	120 000 LITERS

Hose

Product Code	Description
HOS704	1 Meter (3 foot) turquoise softer sectional hose
HOS705	1 Meter (3 foot) white sectional hose
HOS706	1 Meter (3 foot) turquoise sectional hose
